### Safety instructions

- Read the instruction manual and installation instructions and all other information enclosed with the washing machine and act accordingly.
- Retain the documents for subsequent use.

**Risk of electric shock** – Never pull the cable to disconnect the mains plug. Never insert/disconnect the mains plug with damp hands.

Danger to life

For worn-out appliances:

- Disconnect the mains plug.
- Sever the mains cable and discard along with the plug. Destroy the lock on the washing machine door. This will prevent children from locking themselves in and risking their lives.

 Keep packaging, film and packaging parts out of the reach of Danger of suffocation

Risk of explosion

Risk of poisoning

- Keep detergents and care products out of the reach of children.
- Items of laundry pretreated with cleaning agents containing solvents, e.g. stain remover / cleaning solvent may lead to an explosion after being loaded into the washing machine. Rinse items of laundry thoroughly by hand beforehand.
- Risk of injury
  - The washing machine door can become very hot.
  - Be careful when draining hot detergent solution.
  - Do not climb onto the washing machine.
  - Do not lean on the open washing machine door.
  - Do not reach into the drum if it is still rotating.
  - Be careful when opening the detergent drawer while the machine is in operation.

Programme setting for testing in accordance with valid standard EN60456. Note on comparative tests: For testing the test programmes, wash the specified load using the maximum spin speed.

Programme	Additional function	Load	Annual energy consumption	Annual water consumption
Algodón/Algodão (Cottons) 40/60 °C		3,5/7 kg	165 kWh	106861

Programme setting for testing and energy labelling in accordance with EU directive 2010/30/EU with cold water (15 °C).

Risk of explosion. No solvents.

Do not load any laundry into the machine. Turn on the tap. Add the following to compartment **II**:

1. Open and remove the service flap. detergent (dosage according to the manufacturer's instructions for light soiling and the appropriate degree of water

Set the programme selector to Algodón/Algodão (Cottons) 60 °C and select Inicio/Pausa + Carga (Start/Reload). At the end of the programme, turn the programme selector to **Śtop (Off)**.

#### Machine housing, control panel

- Wipe with a soft, damp cloth.
- Do not use any abrasive cloths, scourers or cleaning agents (stainless steel cleaners).
- Remove detergent and cleaning agent residue immediately.
- Do not clean with a jet of water.

### Cleaning the detergent drawer and housing..

... if it contains detergent or fabric softener residues. 1. Pull the drawer out, press down the insert and fully remove the drawer from the housing.

- any detergent or fabric softener residues in the housing.
- **4.** Attach the insert and engage (connect the cylinder to the guide pin).
- **5.** Push in the detergent drawer.

### Washing drum and rubber seal

Wipe the inside of the rubber seal dry with a cloth. Leave the washing machine door open so that the drum can dry out. Rust stains - use chlorine-free cleaning agent, not steel wool.

Descale the appliance according to the descaler manufacturer's instructions. This should not be necessary if the correct dosage of detergent is used.

Ensure there is no laundry in the machine

# Emergency release, e.g. in the event of a power cut

#### The programme continues to run when the power has been restored. However, if the laundry has to be removed, the washing machine door can be opened as follows:

# Risk of scalding.

The detergent solution and laundry may be hot. If possible, leave it to cool down. Do not reach into the drum if it is still rotating.

- Do not open the washing machine door if water can be seen through the glass. 1. Turn the programme selector to **Stop (Off)** and disconnect the mains plug.
- 2. Drain the detergent solution → page 10.
- **3.** Pull the emergency release downwards with a tool and release. Washing machine door can then be opened.

## Information on the display panel depending on model

**F: 16** Close the washing machine door properly; laundry may be caught.

Open the tap completely, supply hose kinked or trapped:

Clean the filter  $\rightarrow$  page 10. Water pressure too low. Detergent solution pump blocked; Clean the detergent solution pump  $\longrightarrow page 10$ . Drainage hose / waste pipe blocked; Clean the drainage hose at the siphon  $\longrightarrow$  page 10.

**F: 21** Motor fault. Call customer services.

Water in the base tub, appliance leaking. Call customer services.

### Maintenance

Detergent solution pump

### Allow the detergent solution to cool dow

**2.** For models with a drainage hose: Remove the drainage hose from the retainer and pull it

from the housing. Remove the container. Remove the sealing cap, allow the detergent solution to flow out. Replace the sealing cap and place the drainage hose in the retainer.

- **3.** Carefully unscrew the pump cover (residual water).
- **4.** Clean the interior, pump cover thread and pump housing (the impeller in the detergent solution pump must rotate).

Turn the programme selector to **Stop (Off)** and disconnect the mains plug.

- **5.** Replace the pump cover and screw it tightly.
- **6.** Place the service flap back on and close.

completely drained out.

To prevent unused detergent from flowing straight into the drain during the next wash: Pour 1 litre of water into compartment II and start the (Drain) programme.

- **2.** Clean the drainage hose and siphon connecting piece.
- **3.** Reattach the drainage hose and secure the connection with the hose clamp.

### Filter in the water supply

Do not immerse the HydroSafe safety device in water (contains an electric valve).

Reduce the water pressure in the supply hose:

- Turn off the tap.
- 2. Select any programme (except for (Rinse)/Centrifug. (Spin) // (Drain)).
- **3.** Choose **Inicio/**Pausa + Carga (**Start/**Reload). Let the programme run for approximately 40 seconds.
- 4. Turn the programme selector to **Stop (Off)**. Disconnect the mains plug.
- Depending on model: Disconnect the hose from the tap. Clean the filter using a small brush.

and/or for Standard and Agua-Secure models:

Remove the hose on the rear of the appliance. Remove the filter with pliers and clean. 2. Connect the hose and check for leaks.

#### Attach/replace the drainage hose correctly. Tighten the screw connection of the supply hose. Inicio/Pausa + Carga (Start/Reload) not selected? No water supply. Detergent not dispensed. - Press Inicio/Pausa + Carga (Start/Reload).

Programmes at lower temperatures:

- (Rinse)/Centrifug. (Spin) (deactivate Skin Care button) or select (Drain).
- Press Inicio/Pausa + Carga (Start/Reload).

### Changing the programme, if ...

- ... you have selected the wrong programme by mistake:
- Reselect the programme.
- Press Inicio/Pausa + Carga (Start/Reload). The new programme starts from the beginning.

### **Reloading laundry, if ...** → page 5

- ... Inicio/**Pausa + Carga** (Start/**Reload**) selected and then **YES** is lit in the display panel. If **NO** is lit, the washing machine door cannot be opened.
- Press Inicio/Pausa + Carga (Start/Reload).

3

### Individual settings

#### (Fin diferido (Finished in) options button

When you select the programme, the relevant programme duration is displayed. You can delay the start of the programme before it begins. The "Finished in" time can be set in increments of one hour up to a maximum of 24 hours. Press the (5) Fin diferido (Finished in) button repeatedly until the required number of hours is displayed (h = hour). Choose Inicio/ Pausa + Carga (Start/Reload). It is not possible to make adjustments once the programme has started.

#### Centrifug. (Spin speed / without final spin)

Before and while the selected programme is running, you can set the spin speed or  $\Box$ (without final spin, laundry soaks in the last rinsing water, display panel - - -). The effects depend on the programme progress.

The maximum selectable spin speed depends on the model and on which programme is currently selected.

#### **Additional functions** → and overview of programmes, see page 7

=U TurboPerfect	For washing in a shorter time with a washing outcome comparable to that of the standard programme. Maximum load → Overview of programmes, page 7.
© EcoPerfect	For saving energy with a washing performance comparable to that of the standard programme.
Fácil (Easy-Iron)	Special spin sequence with subsequent fluffing. More gentle final spin - residual moisture in the laundry slightly increased.
Skin Care	Increased water level and additional rinse cycle, extended washing time. For areas with very soft water or for further enhancing the spin result

#### Childproof lock and reloading

C	
Childpro	of lock/
Applian	

You can lock the washing machine to prevent the functions you have set from being changed inadvertently.

(ON /OFF): Press and hold the Inicio/Pausa + Carga (Start/Reload) button for approx. 5 seconds after the Start/End of the programme. Note: The childproof lock can remain activated until you wish to start the next programme, even after switching off the machine. Then you can deactivate the childproof lock before the start of the programme and activate it again as necessary once the programme

#### YFS Reload

If you want to add additional items of laundry after the programme has started, choose Inicio/Pausa + Carga (Start/Reload). The machine checks whether reloading is possible.

**YES** is lit: Reloading is possible.

NO flashes: wait until YES lights up.

Note: do not open the door until YES is lit.

NO: It is not possible to reload.

Note: For safety reasons, the washing machine door remains locked when the water level and/or temperature is high, or during spinning. To continue the programme, press the Inicio/Pausa + Carga (Start/ Reload).

### Inicio/Pausa + Carga (Start/Reload)

To start the programme or to subsequently load additional laundry, and to activate/deactivate the childproof lock.

### Individual settings

#### Signal

# Important information

#### Protecting the laundry and the machine

- When determining the dosage of all washing powders, additives and cleaning agents, you must follow the manufacturer's instructions.
- Empty pockets.
- Look out for metal items (paperclips, etc.).
- Wash delicates in a laundry bag (tights, curtains, underwired bras).
- Fasten zips, do up any buttons.
- Brush sand out of pockets and collars.
- Remove curtain fittings or place in the laundry bag.

### Laundry with varying degrees of soiling

Wash new items of clothing separately. light Do not pre-wash. If required, choose the additional function **=**♥ TurboPerfect. Pre-treat any stains as necessary. Do not load as much laundry. intense Choose a programme with pre-wash.

### **Soaking** Load laundry of the same colour

Pour soaking agent/detergent into compartment II in accordance with the manufacturer's instructions. Turn the programme selector to Algodón/Algodão (Cottons) frio (cold) and press Inicio/Pausa + Carga (Start/Reload). After approx. 10 minutes, press Inicio/Pausa + Carga (Start/Reload) to pause the programme. Once the required soaking time has elapsed, press Inicio/Pausa + Carga (Start/Reload) again to continue the programme, or select a different programme.

### **Starching** Laundry must not be treated with fabric softener

Starching is possible in all wash programmes if liquid starch is used. Pour the starch in accordance with the manufacturer's instructions into fabric softener compartment & (rinse first if necessary).

### Dveina/bleachina

Dye should only be used in normal household quantities. Salt may damage stainless steel. Always follow the dye manufacturer's instructions! Do **not** use the washing machine for bleaching clothes!

			There is the table of consumption values on page of and notes on page of	values of page o and notes of page o.
Programmes	<i>3</i> 。	тах.	Type of laundry 🏋 🖺 🦝 The Additional functions; information	Additional functions; information

Reduced load for additional =**® TurboPerfect** function
As a **short programme Mix 40 °C,** with a maximum spin speed, is ideal.
Programmes without pre-wash - add detergent to compartment II, programmes with pre-wash - distribute the detergent between compartments I and

Robert Bosch Hausgeräte GmbH Carl-Wery-Str. 34 81739 München / Deutschland

WAE24367EE.

### Safety instructions

- Read the instruction manual and installation instructions and all other information enclosed with the washing machine and act accordingly.
- Retain the documents for subsequent use.

- Risk of electric shock Never pull the cable to disconnect the mains plug.
  - Never insert/disconnect the mains plug with damp hands.

Danger to life

For worn-out appliances:

- Disconnect the mains plug.
- Sever the mains cable and discard along with the plug.
- Destroy the lock on the washing machine door. This will prevent children from locking themselves in and risking their lives.

**Danger of suffocation** - Keep packaging, film and packaging parts out of the reach of children.

Risk of poisoning Risk of explosion

- Keep detergents and care products out of the reach of children.
- Items of laundry pretreated with cleaning agents containing solvents, e.g. stain remover / cleaning solvent may lead to an explosion after being loaded into the washing machine. Rinse items of laundry thoroughly by hand beforehand.

Risk of injury

- The washing machine door can become very hot.
- Be careful when draining hot detergent solution.
- Do not climb onto the washing machine.
- Do not lean on the open washing machine door.
- Do not reach into the drum if it is still rotating.
- Be careful when opening the detergent drawer while the machine is in operation.

# Consumption values depending on model

Programme	Load	Electricity***	Water***	Programme duration***
Algodón/Algodão (Cottons) 20 °C	7 kg	0,32 kWh	68 I	2 ½ h
Algodón/Algodão (Cottons) 40 °C*	7 kg	0,91 kWh	68 I	2 ½ h
Algodón/Algodão (Cottons) 60 °C	7 kg	1,25 kWh	68 I	2 ¾ h
Algodón/Algodão (Cottons) 90 °C	7 kg	2,16 kWh	741	2 ¾ h
Sintéticos (Easy-Care) 40 °C*	3 kg	0,55 kWh	54 I	1 ¾ h
Mix 40 °C	3 kg	0,45 kWh	35 I	1 ¼ h
Lana/Lá (Wool) 30 °C	2 kg	0,22 kWh	47 I	³⁄₄ h

Programme setting for testing in accordance with valid standard EN60456. Note on comparative tests: For testing the test programmes, wash the specified load using the maximum spin speed.

Programme	Additional function	Load	Annual energy consumption	Annual water consumption
Algodón/Algodão (Cottons) 40/60 °C	© EcoPerfect**	3,5/7 kg	165 kWh	106861

Programme setting for testing and energy labelling in accordance with EU directive 2010/30/EU with cold water (15 °C). \*\*\* The values deviate from the indicated values depending on water pressure, hardness, and inlet temperature, ambient temperature, type, amount and soiling of the laundry, detergent used, fluctuations in the power supply and selected additional

### Care

Risk of electric shock. Disconnect the mains plug. Risk of explosion. No solvents.

### Before washing for the first time

Do not load any laundry into the machine. Turn on the tap. Add the following to compartment II:

- approx. 1 litre water
- detergent (dosage according to the manufacturer's instructions for light soiling and the appropriate degree of water

Set the programme selector to Algodón/Algodão (Cottons) 60 °C and select Inicio/Pausa + Carga (Start/Reload). At the end of the programme, turn the programme selector to **Stop (Off)**.

### Machine housing, control panel

- Wipe with a soft, damp cloth.
- Do not use any abrasive cloths, scourers or cleaning agents (stainless steel cleaners).
- Remove detergent and cleaning agent residue immediately.
- Do not clean with a jet of water.

### Cleaning the detergent drawer and housing...

... if it contains detergent or fabric softener residues.

- 1. Pull the drawer out, press down the insert and fully remove the drawer from the housing.
- 2. To remove the insert: press the insert upwards from below with your finger.
- Clean the detergent dispenser tray and insert with water and a brush and dry it. Also remove any detergent or fabric softener residues in the housing.
- **4.** Attach the insert and engage (connect the cylinder to the guide pin).
- **5.** Push in the detergent drawer.

### Washing drum and rubber seal

Wipe the inside of the rubber seal dry with a cloth. Leave the washing machine door open so that the drum can dry out. Rust stains - use chlorine-free cleaning agent, not steel wool.

### Descalina

Ensure there is no laundry in the machine

Descale the appliance according to the descaler manufacturer's instructions. This should not be necessary if the correct dosage of detergent is used.

### Emergency release, e.g. in the event of a power cut

The programme continues to run when the power has been restored. However, if the laundry has to be removed, the washing machine door can be opened as follows:

### Risk of scalding.

F: 16

The detergent solution and laundry may be hot. If possible, leave it to cool down. Do not reach into the drum if it is still rotating.

Do not open the washing machine door if water can be seen through the glass.

- 1. Turn the programme selector to **Stop (Off)** and disconnect the mains plug.
- **2.** Drain the detergent solution  $\rightarrow$  page 10.
- Pull the emergency release downwards with a tool and release. Washing machine door can then be opened.

### Information on the display panel

depending on model

Open the tap completely, supply hose kinked or trapped; F: 17 Clean the filter  $\rightarrow page 10$ . Water pressure too low.

Close the washing machine door properly; laundry may be caught.

- F: 18 Detergent solution pump blocked; Clean the detergent solution pump  $\longrightarrow page 10$ . Drainage hose / waste pipe blocked: Clean the drainage hose at the siphon  $\longrightarrow$  page 10.
- F: 21 Motor fault. Call customer services.
- F: 23 Water in the base tub, appliance leaking. Call customer services

### Maintenance

Risk of scalding. Allow the detergent solution to cool down. Turn off the tap.

### **Detergent solution pump**

Turn the programme selector to **Stop (Off)** and disconnect the mains plug.

1. Open and remove the service flap.

Remove the sealing cap, allow the detergent solution to flow out. Replace the sealing cap and place the drainage hose in the retainer.

- **3.** Carefully unscrew the pump cover (residual water).
- 4. Clean the interior, pump cover thread and pump housing (the impeller in the detergent solution pump must rotate).
- **5.** Replace the pump cover and screw it tightly.
- **6.** Place the service flap back on and close.

To prevent unused detergent from flowing straight into the drain during the next wash: Pour 1 litre of water into compartment **II** and start the **(Drain)** programme.

#### Drainage hose at the siphon

Turn the programme selector to **Stop (Off)** and disconnect the mains plug.

- **1.** Loosen the hose clamp, carefully remove the drainage hose (residual water).
- 2. Clean the drainage hose and siphon connecting piece.
- **3.** Reattach the drainage hose and secure the connection with the hose clamp.

### Filter in the water supply

Risk of electric shock!

Do not immerse the HydroSafe safety device in water (contains an electric valve).

Reduce the water pressure in the supply hose:

- 1. Turn off the tap.
- 2. Select any programme (except for (Rinse)/Centrifug. (Spin) // (Drain)).
- 3. Choose Inicio/Pausa + Carga (Start/Reload). Let the programme run for approximately 40 seconds.
- 4. Turn the programme selector to **Stop (Off)**. Disconnect the mains plug. Clean the filter:
- 1. Depending on model: Disconnect the hose from the tap. Clean the filter using a small brush.

and/or for Standard and Agua-Secure models:

Remove the hose on the rear of the appliance. Remove the filter with pliers and clean.

2. Connect the hose and check for leaks.

### What to do if .

nat to do ii	
Water is leaking out.	<ul><li>Attach/replace the drainage hose correctly.</li><li>Tighten the screw connection of the supply hose.</li></ul>
No water supply. Detergent not dispensed.	<ul> <li>Inicio/Pausa + Carga (Start/Reload) not selected?</li> <li>Tap not turned on?</li> <li>Filter blocked? Clean the filter → page 10.</li> <li>Supply hose kinked or trapped?</li> </ul>
Washing machine door cannot be opened.	<ul> <li>Safety function active. Programme stopped? → page 4.</li> <li>Is □ (without final spin) selected? → page 3, 4.</li> <li>Can be opened by emergency release only? → page 9.</li> </ul>
Programme does not start.	<ul> <li>Inicio/Pausa + Carga (Start/Reload) or ⑤ Fin diferido (Finished in) time selected?</li> <li>Washing machine door closed?</li> <li>Childproof lock active? Deactivate → page 5.</li> </ul>
Detergent solution is not drained.	<ul> <li>- Is</li></ul>
Water not visible in the drum.	- Not a fault - water below the visible area.
Unsatisfactory spin result. Laundry wet/too damp.	<ul> <li>Not a fault - the unbalanced-load detection system has cancelled the spin cycle because of uneven distribution of the laundry.         Distribute small and large items of laundry evenly inside the drum.     </li> <li>         Fácil (Easy-Iron) selected? → page 5.     </li> <li>Selected speed too low? → page 5.</li> </ul>
The programme duration changes during the wash cycle.	<ul> <li>Not a fault – the programme sequence is optimised for the particular wash process</li> <li>This may result in changes to the programme duration in the display field.</li> </ul>
Spin cycle performed several times.	- Not a fault - unbalanced load detection system adjusts the imbalance.
Residual water in the compartment for care products.	<ul> <li>Not a fault - the action of the care product is not affected.</li> <li>Clean the insert if necessary → page 9.</li> </ul>
Odour formation in the washing machine.	<ul> <li>Run programme Algodón/Algodão (Cottons) 90 °C without laundry. Use standard detergent.</li> </ul>
Status display 🖨 flashes. Foam may be coming out of the detergent drawer.	<ul> <li>Too much detergent used? Mix 1 tablespoon of fabric softener with ½ litre of water and pour into dispenser II (not for outdoor and down-filled textiles!).</li> <li>Reduce the detergent dosage for the next wash cycle.</li> </ul>
Intense noise formation, vibrations and "wandering" during the spin cycle.	<ul> <li>Are the appliance feet fixed?</li> <li>Secure the appliance feet → Installation instructions.</li> <li>Transportation safety devices removed? Remove the transportation safety devices → Installation instructions.</li> </ul>
Noises during spin and drain cycles.	- Clean detergent-solution pump → page 10.
Display panel/indicator lamps do not function during operation.	<ul><li>Power cut?</li><li>Fuses triggered? Reset/change the fuse.</li><li>If the fault occurs repeatedly, call customer services.</li></ul>
Programme sequence longer than usual.	<ul> <li>Not a fault - unbalanced load detection system adjusts imbalance by repeatedly distributing the laundry.</li> <li>Not a fault - foam detection system active - adds an additional rinse cycle.</li> </ul>
Detergent residues on the laundry.	<ul> <li>Occasionally, phosphate-free detergents contain water-insoluble residues.</li> <li>Select the (Rinse)/Centrifug. (Spin) cycle or brush out the laundry after washing.</li> </ul>

en Instruction manual

If you cannot correct a fault yourself (switching on/off) or a repair is required:

- Turn the programme selector to **Stop (Off)** and remove the mains plug from the socket.

- Turn off the water supply and call customer services → *Installation instructions*.
